ACCORD 1

THE DIGITAL SANCTITY ACCORD

A Diplomatic Instrument of the New World Alliances [Foundation]PTT Affirming the Inviolability of the Living Being [Person] in the Digital Age

EXECUTIVE SUMMARY

Why Digital Sanctity Is the First Pillar of the NWA[F] Peace Architecture

Humanity has crossed a threshold where the boundaries of the self are no longer defined by skin, home, or nation — but by data, identity, and the invisible architectures of the digital world.

The New World Alliances [Foundation]PTT recognises that:

- The digital body - data, metadata, behavioural traces, biometrics, identity, is now inseparable from the living being.
- The digital sanctuary - one’s private digital space, must be treated with the same reverence as the physical home.
- The sovereignty of the mind must be protected from manipulation, extraction, and algorithmic coercion.

This Accord unifies the strongest protections across:

- International human rights law
- Regional rights systems
- Indigenous sovereignty frameworks
- Aboriginal Native [M-ori] Tikanga (Custom), including Te Moana nui a Kiwa (Pacifica)PTT2026
- Global digital rights jurisprudence
- Interfaith ethical traditions
- Scientific and technological ethics
- The legal systems of all 142 signatory states and 300 COR regions

It stands inside the Stadium of Light (the NWA[F] Declaration – 4439 INC GG), forming the first boundary stone of the Peace Architecture.

This Accord is not legally binding, but binding in principle - a universal commitment to protect the digital personhood of all beings.

PREAMBLE

The Parties to this Accord,
